FOOD ADMITTANCE DECLARATION

PRODUCTS :

ECOCLEAN® PBT Monofilament for Foodstuffs Applications

Size: 0,1 to 3,0 mm **Shape:** Round, X , Hollow and Triangular.

Colours: Natural 181 ; White 781, 881 ; Black 14381 ; Yellow 2381, 5781 ;
Red 7581, 5581 ; Orange 12881 ; Blu 5481, 9981 ; Green 5881, 10281 ;
Violet 13881

The above mentioned products produced by Plasticfibre S.p.A. are manufactured by first choice Raw Materials (Polymers, Master batches and additives) which are declared by our suppliers to be in compliance with the following European Union legislation on materials and articles intended to come into contact with foods:

European Union

- Commission Regulation EC No.1935/2004 as amended
- Commission Regulation EU No.2017/752 as amended

Italian Legislation

- Art. 12 Decreto Ministeriale 21/03/1973 concerning colorants for plastic materials intended to come into contact with foods as amended

German Legislation

- BfR IX. Colorants for plastics and other polymers used in commodities as of 01.06.1994

USA

- Substances fit for contact with foodstuffs in accordance with FDA
Raw Materials code of Federal Regulation 21 CFR 177.1660
Color 21 CFR 178.3297

The ECOCLEAN® monofilaments are made with PBT and PET polymers, added with masterbatches colourings.

Based on the information received from our suppliers and on our knowledge of the raw materials used, the ECOCLEAN® monofilaments contain the following substances for which restrictions and/ or specifications are set out in the above cited legislation on materials and articles intended to come into contact with foods:

FCM substance No	EEC Ref. No	CAS registry number	Substance name	Group restriction number	Restrictions
291	19150	000121-91-5	Isophthalic acid	27	SML = 5 mg/kg sum of FCM 188 and 291 expressed as isophthalic acid
785	24910	000100-21-0	Terephthalic acid	28	SML = 7,5 mg/kg sum of FCM 191, 192 and 785 expressed as terephthalic acid
128	10060	000075-07-0	Acetaldehyde	1	SML(T) = 6 mg/kg sum of FCM 128 and 211 expressed as acetaldehyde
227	16990	000107-21-1	Ethyleneglycol	2	SML(T) = 30 mg/kg sum of FCM 89, 227 and 263 expressed as ethyleneglycol
263	15760	000111-46-6	Diethyleneglycol	2	
398	35760	0001309-64-4	Antimony trioxide	-	SML = 0,04 mg/kg expressed as antimony
246	25150	000109-99-9	Tetrahydrofuran	-	SML = 0,6 mg/kg
254	13720	000110-63-4	1,4-Butanediol	30	SML = 5 mg/kg sum of FCM 254 and 672 expressed as 1,4-butanediol

Based on the information received from our suppliers of the raw materials used, the ECOCLEAN® monofilaments contain the following additives which are also authorised as food additives by the Regulation EC No 1333/2008 ("dual use" additives):

FCM substance No	EEC Ref. No	CAS registry number	Substance name	Food legislation code	Food legislation reference
509	72640	0007664-38-2	Phosphoric acid	E 338	Directive 95/2/EC

This declaration refers to all the raw materials used by Plasticfibre S.p.A. in the production of the above cited synthetic monofilaments.

As the final applications and conditions of use of the filaments are not known by Plasticfibre S.p.A. it is responsibility of the manufacturer of the finished article/product to assure and to check its conformity in view of its specific use, as well as to ensure that the general and specific migration limits are not exceeded.

We hereby guarantee the consistency of the formula and of the technological process which this declaration refers to. Products are subjected to internal checks and tests to guarantee a constant level of quality.

Our technical Department is at your full disposal for any further information you might need.
